

# DESERT CHILD

LIGHTROOM PRESET PACK GUIDE  
by Carmélisse

## INSTALLATION

Step 1: Unzip files onto your computer.

Step 2: Open Lightroom

Step 3: Go to > Lightroom · Preferences · Presets

Step 4: Click on > Show Lightroom Presets Folder

Step 5: Go to Lightroom > Develop Presets

Step 6: Copy 'Carmélisse | Desert Child Preset Pack' folder into Develop Presets

Step 7: Restart Lightroom

## GUIDE

Keep in mind that every photo is unique, so it's impossible to create a perfect image with only one preset.

In order to get the best results, make sure you are editing an image in RAW (although not mandatory).

If an image doesn't come out how you expect it to, play around with the settings until satisfied.

Hope you enjoy this preset pack!
